

3Dsolve Inc.

3Dsolve creates collaborative simulation learning solutions for government, military and corporate applications. Using computer game engines and technologies pioneered during the last decade, 3Dsolve recently won a contract working with Computer Sciences Corp. to develop the U.S. Army Training and Doctrine Command's first Level IV interactive multimedia instruction.

The unique approach to distributed learning allows 3Dsolve to deliver both synchronous and asynchronous e-learning over connections as limited as 56K dial-up.
