NEWS RELEASE FOR IMMEDIATE RELEASE

3Dsolve Inc. Awarded Contract with US Naval Submarine Learning Center

Win is Latest for Fast-Growing Simulation Learning Vendor

Cary, NC, December 6, 2004 — 3Dsolve Inc., The Simulation Learning Company, announced today that it has won a contract to develop simulation-based courseware for the Submarine On-Board Training Department (SOBT) of the US Naval Submarine Learning Center (SLC) in Groton, Connecticut. The contract is another in a string of successes for 3Dsolve, which has already announced contract wins with the US Army Signal Corps and the North Carolina Global TransPark during the last year.

Under the terms of the contract, 3Dsolve will develop simulation-based e-learning materials to instruct *Los Angeles*-class attack submarine personnel in Force Protection and Anti-Terrorism (FP/AT) procedures for in-port security. Using the laptop computers already deployed on US submarines, students will be able to review and practice critical security procedures while still at sea. The simulations being developed will encompass security procedures for both the exterior environment around the submarine as well as the interior environment of the submarine.

“We’re excited to be developing courseware for the US Naval Submarine Learning Center,” said Richard Boyd, CEO of 3Dsolve. “Building on existing video-based courseware, the simulation-based learning tools we’re developing will give the US Navy a platform for training that is quickly adaptable to new vessels, new ports, and new training requirements.”

3Dsolve expects to deliver the final courseware to SOBT and the SLC in the first half of 2005.

About 3Dsolve

3Dsolve, The Simulation Learning Company, creates collaborative simulation learning solutions for government, military, and corporate applications, a market estimated to reach \$6.1 billion by 2006. 3Dsolve's simulation learning products use realistic, interactive 3D graphics, based upon industry standards, enabling users to learn by doing. In each of the last two years, 3Dsolve has been named as one of *Military Training Technology* magazine's Top 100, the "companies that have made a significant impact in the military training industry." 3Dsolve's headquarters are in Cary, North Carolina, near world-renowned Research Triangle Park. Visit 3Dsolve on the Web at <http://www.3dsolve.com>.

About the US Naval Submarine Learning Center

Located at Naval Submarine Base New London (SUBASE NLON) in Groton, Connecticut, the US Naval Submarine Learning Center (SLC) is responsible for coordinating the efforts of six submarine training sites, creating and maintaining the US Navy's submarine training vision, obtaining budget resources for individual training, creating career paths for all submariners, leading efforts to improve performance, and overseeing and administering the submarine rating-exam process. The SLC is committed to the tradition of training excellence and ensuring that US Navy submariners are the finest trained and best prepared in world.
